

ADVANCED COURSE - CHILDREN & ADULTS

SUNDAY 12TH FEBRUARY 2017 | 6.5 CPD HOURS

Presented by Dr Dan Hanson and Dr Marjan Jones

Dr Dan Hanson

Dr Marjan Jones

This course will focus on treatment of children and adults. Protocols for identification, diagnosis, treatment and after-care of lip and tongue ties in this age group will be covered in depth.

Following the TTI Advanced Course for Children and Adults, practitioners will be able to confidently determine whether an oral restriction is impacting on the health of the patient. Moreover, laser surgeons (such as dentists) and their teams will leave the course with the necessary protocols required to run a highly effective tongue and lip tie clinic for this age category. Protocols for preparing the musculature and neurology of the tongue prior to surgery, as well as for rehabilitating the tongue after surgery will be shown in depth.

The role of each member of a multi-disciplinary team will be covered and how overall function can be restored and enhanced through effective treatment and aftercare. Practice management protocols such as appointment co-ordinating and preparing the patient for each appointment will be highlighted.

Who is this course for?

- » Laser surgeons (such as dentists) and their entire team
- » Orthodontists, general dentists and oral health therapists and hygienists
- » Body Workers / Manual Therapists
- » All other health professionals with an interest in the surgical treatment of oral restrictions

What you will learn:

- » The effect of oral restrictions on children and adults
- » The functions of the tongue - Orofacial development, eating, speech, oral hygiene, the airway
- » Coordination of appointments to run a laser tongue and lip tie clinic for children and adults
- » Working with your chosen bodyworker
- » Diagnosis, "pre-habilitation", surgical technique, rehabilitation and aftercare
- » Working with co-morbidities such as breathing dysfunction, and malocclusion
- » Timing of the laser frenectomy in relation to treatment of co-morbidities such as Myobrace treatment

BONUSES:

All attendees will be provided with a comprehensive workbook as well as a USB with helpful documents such as consent forms and patient information sheets

FEES:

Dentists/Medical Doctors*:
\$1795 ex GST (\$2000 ex GST after January 15th 2017)

Other:
\$495 ex GST (\$595 ex GST after January 15th 2017)
